SSCOPE INCORPORATED

A registered non-profit organization providing gainful supportive employment and training for consumers of mental health and related services

INTRODUCTION

Self-Starting Creative Opportunities For People in Employment, otherwise known as **SSCOPE**, is a non-profit community based Casual Employment service.

Our members, men and women who are consumers of any mental health services, use and develop their working skills within the community.

In doing so, our members provide service to home and business owners, non-profit agencies, community groups and associations. Our members are provided with opportunities to:

- *Empower themselves with individual and group work projects*
- *Increase their self-confidence*
- *Renew their social skills and encourage the development of a social network*
- *Contribute to the community in a positive way*

In return the community receives beneficial and quality services at a reasonable cost. By working together we not only encourage a productive work force, but we also work together to widen our horizons for a more integrated community.

HOW THE SERVICE OPERATES

SSCOPE matches the requirements of the customers with the abilities of our members. After screening and assessment by **SSCOPE** staff, the members are matched with work assignments for which they are best suited.

Depending on the nature of the work assignment, a support worker may accompany the **SSCOPE** member. They may work with a support worker on a one-on-one basis, or as a member of a group of two or three.

An assessment will be made about the nature of the work desired either over the phone or during an on-site visit. A fee, will be determined, and a member(s) will be assigned to work on the project.

SSCOPE has friendly, reliable and courteous workers who are eager to help you. If you have a work project for one of our members, call the **SSCOPE** office. We will ensure that the member(s) selected for your work assignment will be compatible in every way.
